Profile

I am an experienced cross-platform mobile and full-stack web developer specializing in the Flutter framework. I have strong skills in statistical analysis, data visualization, and Python programming, allowing me to bridge the gap between development and data science. I'm also proficient in SQL and MS Office, making me versatile in handling data-related tasks.

I'm currently expanding my expertise in machine learning modeling and cybersecurity, particularly penetration testing. With strong communication skills, I can effectively present insights and collaborate with teams. Passionate about technology, I'm always looking to improve my skills and excel in both software development and data-driven fields.

Education

08/2024 – 10/2029
Lagos, Nigeria

Bsc in Mathematics
University of Lagos 🔗

Certificates

- Python Programming 🔗
- Machine Learning
- Pentesting
